

# FIX TRADING COMMUNITY

## EMEA Trading Conference 2023

– Let's talk about ... Orchestra –

Thursday 9<sup>th</sup> March 2023

**Hanno Klein**

FIX Technical Director

GTC EMEA Co-Chair

Senior Standards Advisor, FIXdom

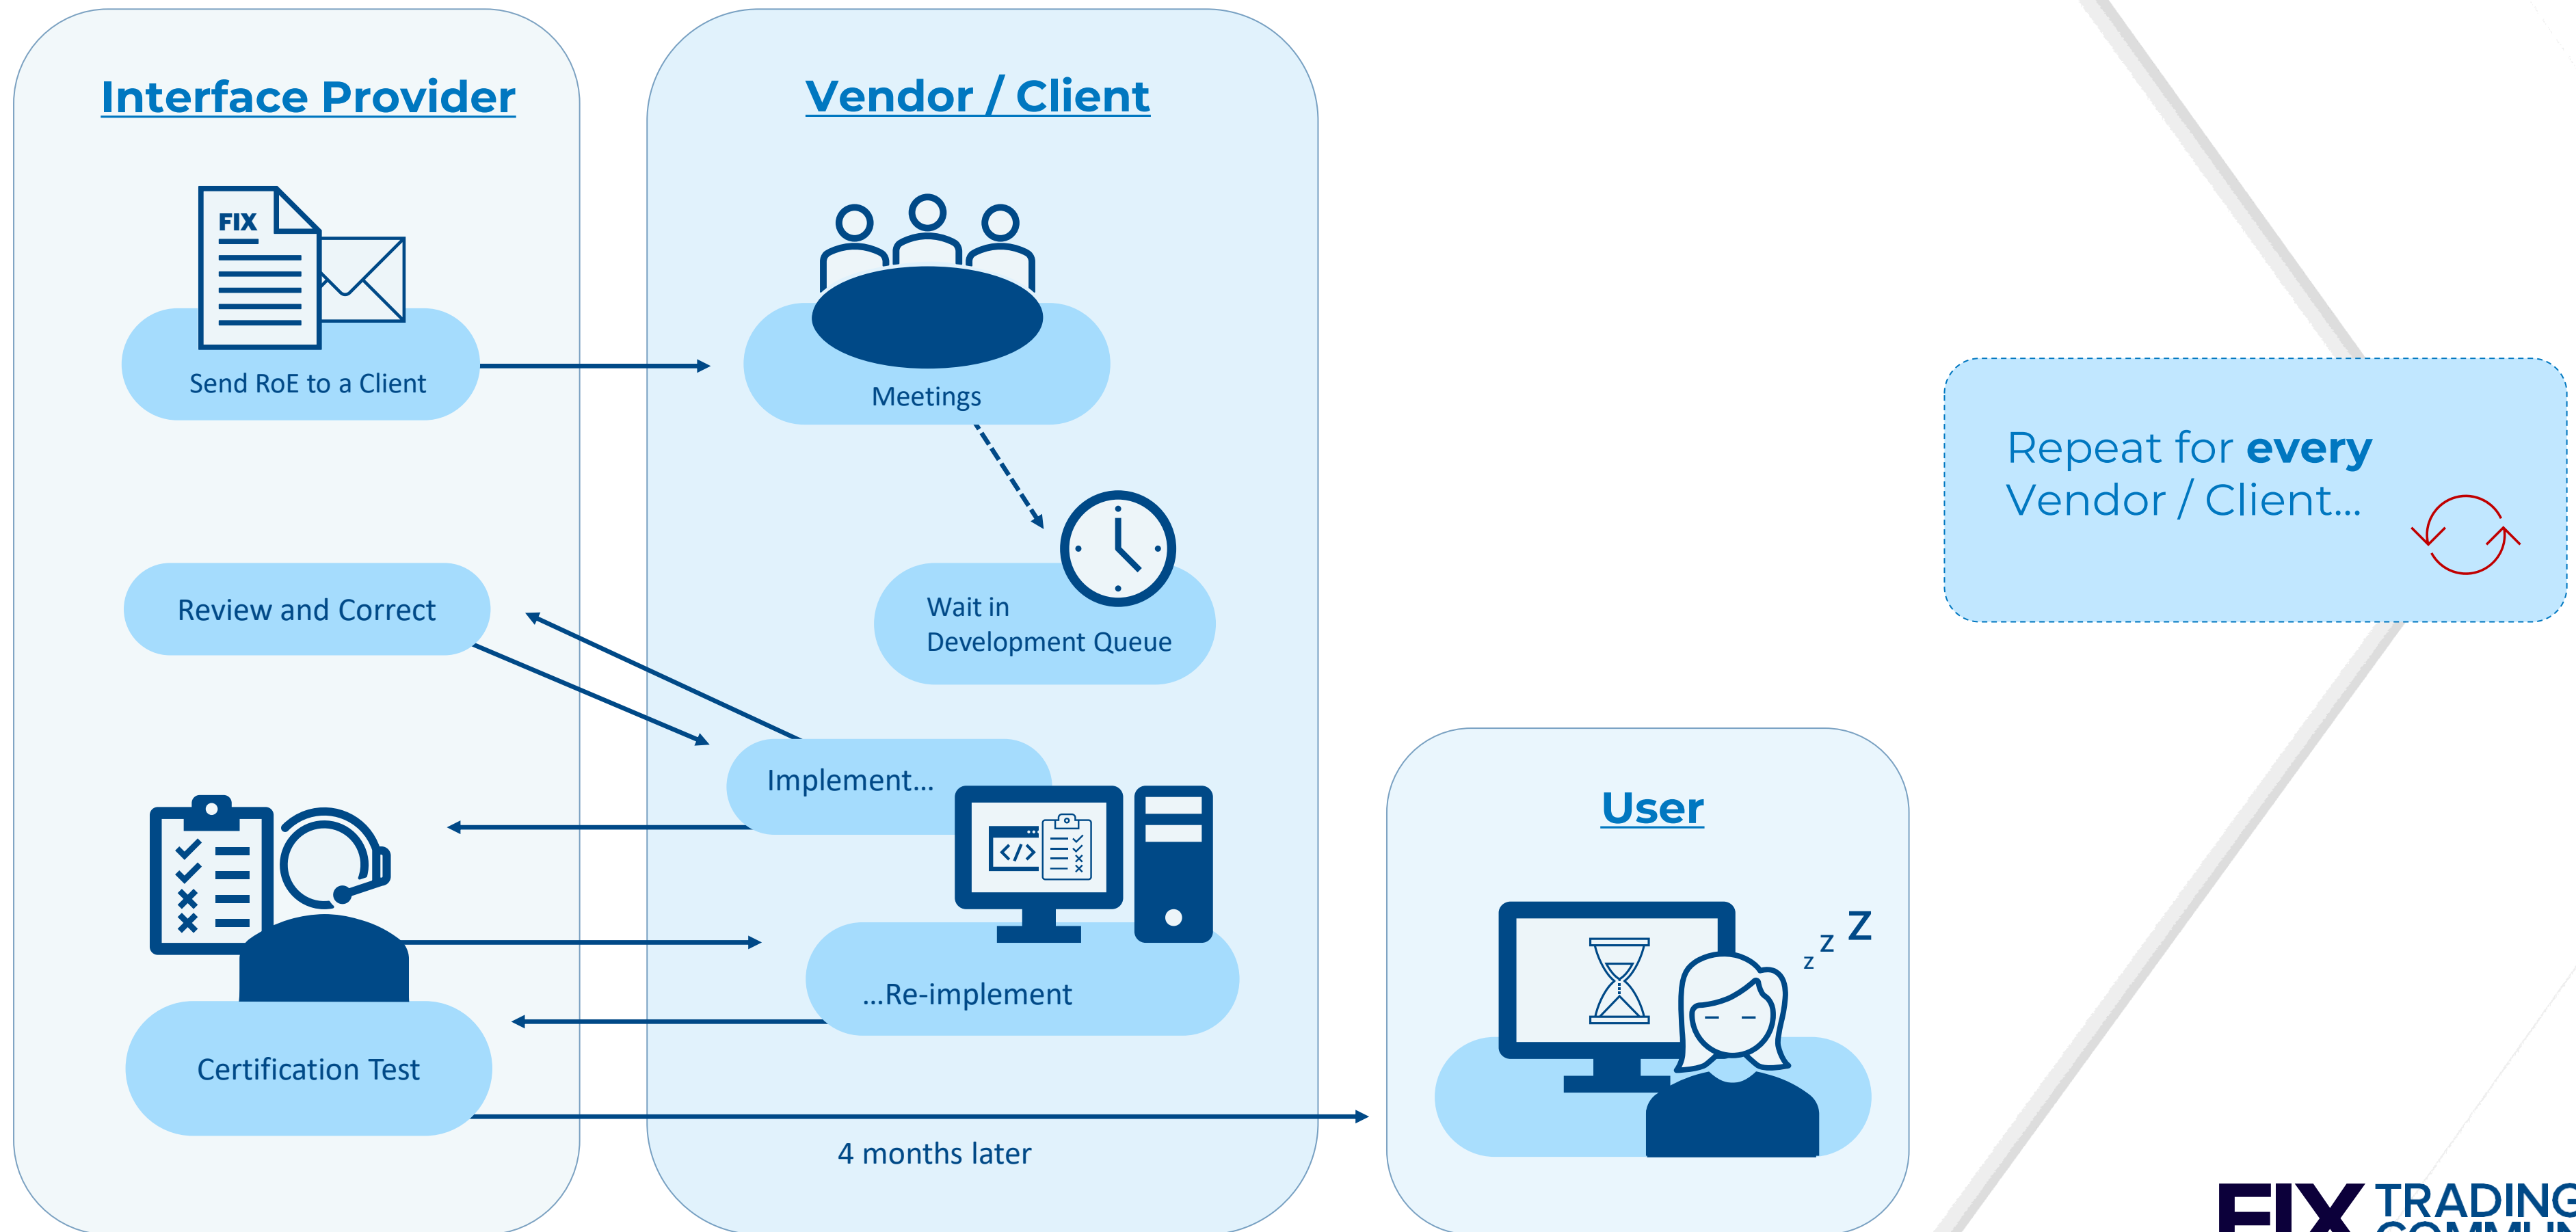

# Setting the scene...

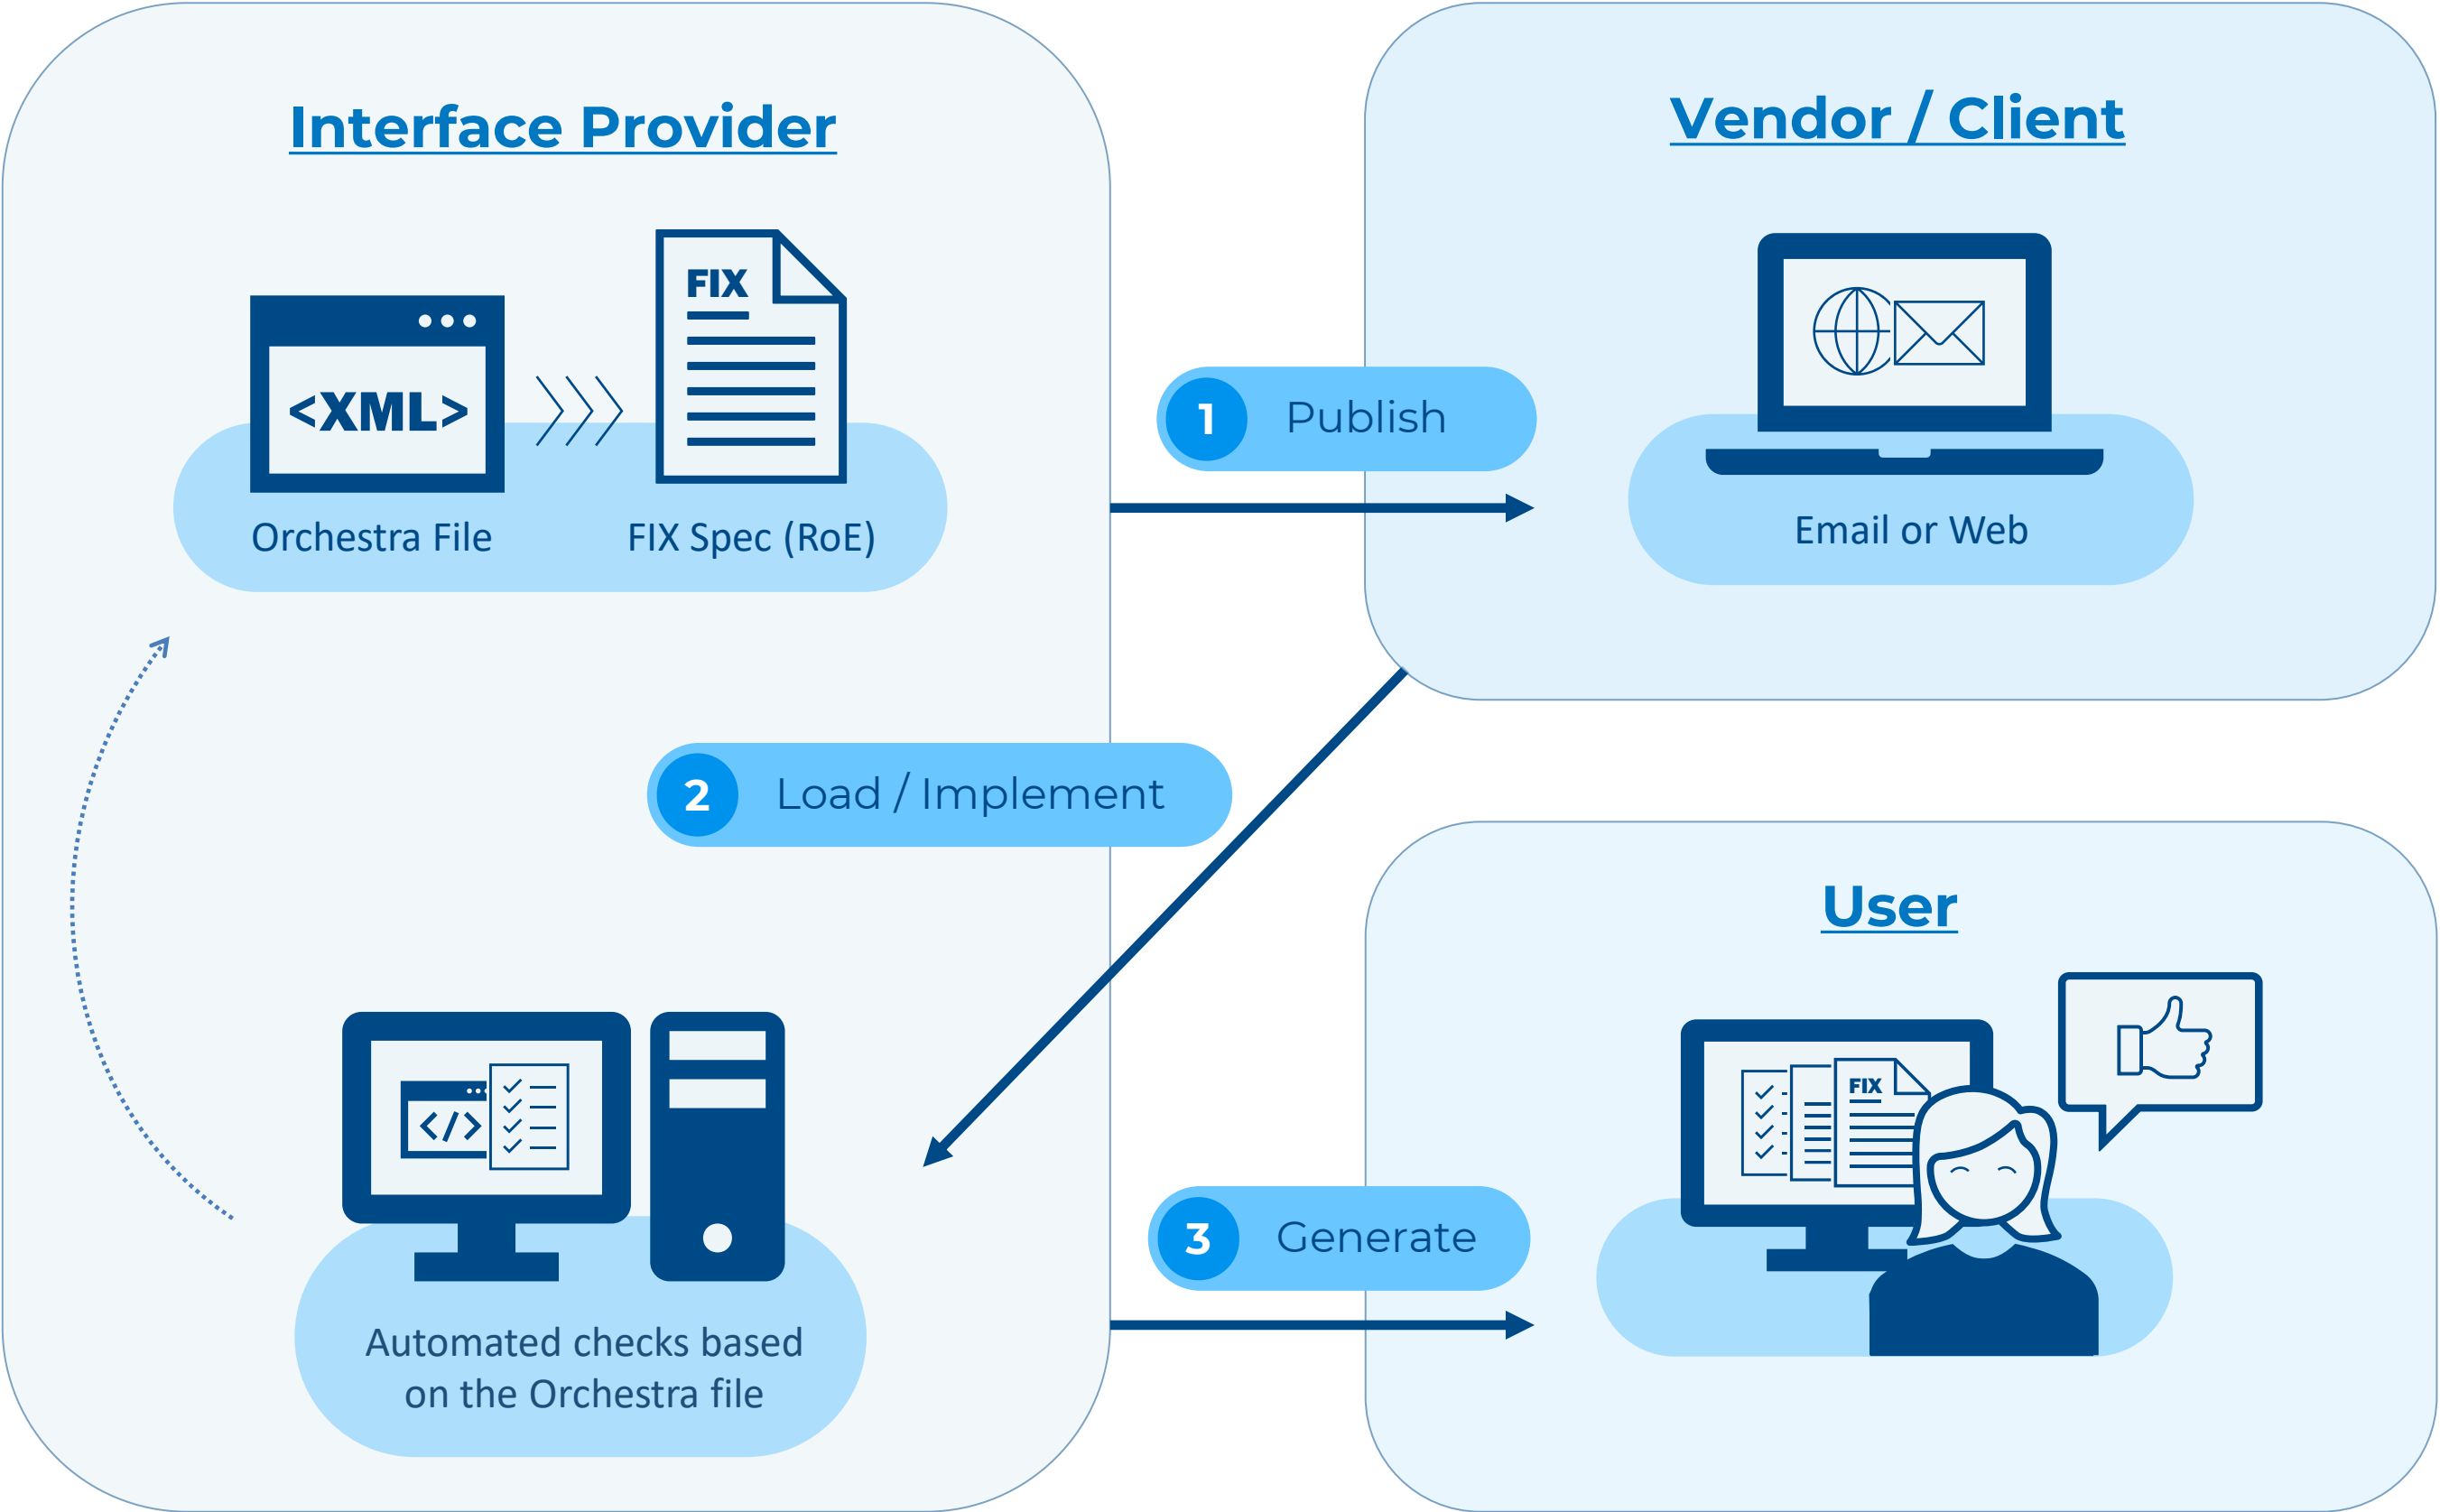

---

- What is out of scope?
  - Orchestra tools (see next session *Orchestra in Practice*)
  - Technical detail, e.g. Orchestra XML snippets
- What is in scope?
  - Orchestra paradigm
  - Challenges of interface development and testing
  - Challenges of on-boarding customers
  - Challenges of syncing software and documentation
  - Automation of processes
  - Translation of information across protocols, versions, and flavours
  - ...
- Approach: interactive discussion with the audience

# Life without Orchestra...

# The Orchestra way

Write Orchestra file once, **automate** on-boarding ✓

# Questions

---

1. What problem is Orchestra trying to solve?
2. Why did FIX decide to create Orchestra as a Technical Standard?
3. How does FIX ensure broad applicability of Orchestra?
4. Is Orchestra optional or required for FIX interfaces?
5. Which roles in an organisation have to deal with Orchestra?
6. How does Orchestra work for non-FIX interfaces?
7. Can I automate the conversion between FIX and non-FIX interfaces?
8. How can Orchestra help with my documentation?
9. What are the key differences between Orchestra and the legacy repository formats (Unified/Basic)?
10. What is the most important feature of Orchestra if you had to pick one?
11. ...
