

#FIXNORDICS2024

FIX Trading Community Update

Jim Kaye, Executive Director

Celebrating 30 years of electronic trading

- The beginning of exchange electronification
- The rise of the internet
- Hardware and software costs
- Competitive pressures in the industry

Celebrating 30 years of the FIX Protocol

- First public version released July 1994
- The catalyst for growth in electronic trading
- Continued growth and innovation
 - Average 5 new messages a year
 - New 'version' every 7 weeks

Celebrating 30 years of the FIX Process

Doing something harder now to make something easier later

- Investing time
- Accepting challenge
- Standardisation is slower than going it alone
- Improving the industry
- Making an impression
- Building your skills and network
